

# Project Management Institute Jamaica Doctor Bird Chapter PMP® Exam Prep Course

## Who is Velociteach?

Velociteach is the Atlanta based company behind the book “**The PMP® Exam: How to Pass On Your First Try**” by Andy Crowe, PMP®.

With over 100,000 copies in print, this book has become a valuable and trusted volume on PMP® Exam Preparation.

Velociteach is also the company behind InSite — the e-learning system that combines advanced PMP® level training with PMP® exam simulation.

The PMI JDBC PMP® Exam Prep course is based on these materials.

PMI JDBC researched the market and is proud to have formed a licensed content partnership with Velociteach to provide their highly acclaimed PMP® Exam Prep course materials within Jamaica.

You're ready to take the next step in your career by becoming a Project Management Professional. You've put in your hours and earned your experience on the job. But are you ready for the rigour of the PMP exam?

Project Management Institute Jamaica Doctor Bird Chapter (PMI JDBC) has partnered with Velociteach to bring to Jamaica what are among the most comprehensive and effective PMP® Exam Prep materials available today — the Velociteach PMP® Exam Prep System.

You may not be ready to take the PMP® exam yet, but after the PMI JDBC 7 Days InAct PMP Exam Prep Course, you will be.

### **The PMI JDBC PMP® Exam Prep system includes three components.**

**First component** — a very intensive 7 days instructor led course consisting of 17 modules that cover the entire scope of knowledge required for passing the PMP® exam. Taught by industry experts, the course is chock full of advice, study techniques, and best practices for passing the exam. Materials include a comprehensive workbook including course slides and plenty of room for notes to help you study. Need contact hours? No problem, the 7 days PMP Prep system offers students the 35 contact hours needed to sit for the exam.

**Second component** — The InSite e-learning system, includes an e-learning component and a PMP® exam testing lab. The e-learning portion supplements the instructor led course and provides about 15 – 20 hours of project management training reinforcement. Participants can go through all of the e-learning modules, or select specific modules to clarify and review specific exam topics. By completing the entire e-learning module, participants can increase their understanding or PMI project management best practices.

The testing lab allows you to simulate the taking of an actual 2 hour PMP® exam, or create custom tests of any length focused on specific areas of your choice. The results of each test are recorded, so you can see where you need to focus in order to pass the exam.

**Third component** — Andy Crowe's book “The PMP® Exam: How to Pass on Your First Try”, flash cards, laminated quick reference guide. Use these as you study leading up to your exam, to help ensure that you know the material inside and out.
